External delegates £225 for 2 days.
Refreshments included: tea/coffee & a sandwich lunch

Venue: Governor's Hall, St Thomas' Hospital, Lambeth Palace Road, London SE1 7EH

EB Clinical Nurse Specialists from Guy's & St Thomas' and Great Ormond Street Hospitals, working in collaboration with DEBRA, are running a unique two day study programme about Epidermolysis Bullosa. The study days are aimed at healthcare professionals and carers who are involved in the management of patients with EB.

This popular course has been running for a number of years and attracts delegates from across the UK and internationally. The course is consistently highly regarded and evaluated.

"I learnt a lot" "very informative & well presented" "amazing, challenging, interesting, good to hear"

"fantastic opportunity to listen to patients and hear their personal experience"

"A great 2 days. Well organised and led by a passionate team of professionals. Thank you"

Topics covered will include:

- What is EB?
- Occupational therapy
