

IRB#STUDY00000610

Do you or your child have Epidermolysis Bullosa (EB)?

We are seeking individuals with EB and caregivers around the world to partner with researchers in identifying the most important health outcomes in epidermolysis bullosa, to help advance clinical research for new ways to treat EB.

To qualify, you must be:

16 years or older

Have a diagnosis of or care for someone with Dystrophic EB, Junctional EB, or EB Simplex

Willing to participate in a 1– 1.5hr interview in English

Willing to complete a short online survey in English
